

## **Acknowledgement**

*It is my highest honour and pride to declare that we have completed the preparation of the 1<sup>st</sup> Draft Development Plan (DDP) of Siliguri Municipal Corporation for the period 2008-09 to 2012-2013. I sincerely congratulate all the stakeholders of Siliguri Municipal Corporation who actively and sincerely took part in the awareness campaigns, meetings and workshops. Their participation and contribution proved that the citizen are not merely the 'people with needs', but could also 'given the opportunity, think, assess, evaluate and inspire' and 'act as agents of change' this reformed process of participative governance*

*At the very beginning I take this opportunity to share this achievement with our erstwhile departed Mayor, Prof. Bikash Ghosh, who would have been truly happy to see the Draft in the printed form.*

*My boundless gratitude goes to the Hon'ble Minister in Charge, Municipal Affairs & Urban Development, Sri Ashok Bhattacharyya for conceptualising and guiding the entire DDP process in West Bengal and providing special impetus to the SMC DDP process.*

*At this juncture, it is pertinent to mention the most important role of Change Management Unit (CMU), Kolkata Urban Services for the Poor (KUSP). In this regard, I thank Sri Arnab Roy (IAS), Project Director, CMU, KUSP for providing unstinted support in this endeavour. I also extend my thanks to Sri Kallol Mukherjee (Project Manager, CMU), Sri Saibal Thakurata (Urban Planner, CMU) and Sri Jayanta Chakraborty (OD expert) for their constant encouragement and technical support.*

*Planning along with formulation is always a team work, given shape by a group of dedicated individuals. This Draft Development Plan for Siliguri Municipal Corporation is a result of hard team work and concerned contribution made by the experts and technically sound people, councillors, ward committee secretaries and well-wishers who have diligently worked behind the scenes.*

*Foremost, I would like to thank all the ward committee, respective ward councillors, members of NHG, NHC and CDS for their valuable contributions to the process of completion of the draft plan document. I am particularly indebted to CMU, DPC, DLVB and expert intuitions like ILGUS, SUDA and MED for their technical expert.*

*I express my sincere gratitude to Sri Paritosh Roy (Commissioner, SMC), Sri Subhash Chandra Dutta (FO, SMC), Sri Sanjib Chaki (Secretary, SMC) and head of all the departments and all municipal staff for their valuable contributions and hard works. And special congratulations to all of you who have been the real force behind the sincere and humble efforts.*

*My special thanks to Mr. Kaushik Ghosh, Resource Planner, Directorate of Local Bodies (DLB) for his constant support and valuable guidance at different stages of DDP preparation.*

*I also thank Mr. Tapash Datta (Urban Planner, DLB, Jalpaiguri Division) for guiding us in the final stages of the DDP.*

*I deeply appreciate the hard work and invaluable support of all the consultants involved in various stages of preparation of the DDP namely Sri Barenyo Chowdhury (IKONET). Needless to mention the valuable contribution made by the inputs of Sir Pankaj Kumar, the 3<sup>rd</sup> Party Appraisal consultants, (Pankaj Kr. Associates)*

*Draft Development Plan 2008-09 to 2012-13*  
*Siliguri Municipal Corporation*

*There have been many who had worked ceaselessly, behind the scenes in preparing this valuable document for Siliguri Municipal Corporation, which is a first of its kind in municipal history.*

*Hence, last but certainly not the least, my heartfelt congratulations to Joyeeta Dey (Urban Planner, SMC), Manoj Karmakar (AFC, SMC), Arijit Roy ( IT Co-ordinator) and all those hard working people without whose enthusiastic participation this Draft report would certainly have been incomplete.*

*I wish that this draft development plan will enable our Corporation to identify the road map for its comprehensive development.*

**Munsi Nurul Islam**  
**Mayor**  
**Siliguri Municipal Corporation**

## **INTRODUCTORY NOTE BY MAYOR**

*Improving the quality of governance for sustainable development has emerged as the most crucial concern among the democratically elected urban local bodies. The Urban Development Strategy as adopted by the Left Front Government in West Bengal primarily aims at establishing decentralized development ensuring peoples active participation by extending optimally possible grassroots of local democracies and by involving all the stake holders in the making of decisions which should be sustainable inclusive and harmonious. This pro-people and pro-poor approach to development based on equity, justice, transparency has extended the social roots of urban local bodies. This development strategy has touched upon the developmental issues in terms of services infrastructure and human well-being emphasizing basic services for the urban poor.*

*Keeping the focus of the urban Development Strategy into consideration, this Draft Development Plan of the Siliguri Municipal Corporation holds promise for all pervasive development which primarily aims at ending socio-economic disparities what I feel the "citizen-oriented Paradigm of good governance" based on pro-people, pro-poor and communitarian ethics of development. Precisely establishment of social ownership over all assets and services of Siliguri Municipal Corporation has been our principal commitment.*

*The Kolkata Urban Services for the Poor visualizes DDP as a comprehensive "First Generation" business plan of the urban local bodies, and with this end in view it has spelt out the areas of activities, methods, inputs and other kinds of assistance required in connection with the preparation of DDP.*

*In tune with the time frame we have formulated the municipal vision and subcomponent wise development objectives for effective and efficient municipal performance in respect of both the service and development systems.*

*The DPG and the DTGs have very skilfully utilized their experience and expertise on the one hand, and the services, reports proposal received from different stake holders at different stages on the other. They have successfully taped local technical resources and technical persons by way of involving them in the DDP preparation process. While finalizing the DDP, the Perspective Plan for Siliguri Jalapaiguri Planning Area SJPA-2025 was also referred. Technical advice from Siliguri Jalpaiguri Development Authority was also sought as and when required.*

*All this, it is felt, has made the plan preparation activities more realistic and commensurate with the socio economic needs and aspirations of the citizens at large, albeit always keeping in mind the overall organizational capacity and financial resources of the municipal corporation. In other words, the board perspective has all along been comprehensive development for citizens irrespective of their socio economic background and strengthening the municipal organization to be capable of addressing citizens charters rolled out through various projects encompassing all the sub components.*

*Over and above, much emphasis has been laid on identifying and prioritizing issues and interventions, involving the citizens and other stake holders down to the ward level before finalizing the project proposals and validation. Finally, the whole thing was placed before the specially covered meeting of the Board of Councillors while after thread bare discussion and due consideration passed the DDP for submission to DPC. Last but not the least, despite best efforts put in the making of Draft Development Plan, there might be some lacunae, which may be construed as normal human fallacy. Any suggestion received from CMU and DPC in this regard shall be accommodated and incorporated in the DDP by the Board of Councillors.*

## EXECUTIVE SUMMARY

### *Background of DDP*

The Siliguri Municipal Corporation Act 1990 requires it to prepare Draft Development Plans (DDP) covering a period of five years and that addresses a range of municipal functions as laid down in the Act. The key principles guiding the preparation of the DDP were a useful instrument for SMC for integrated planning and guiding balanced development.

The DDP integrates and balances:

- Needs of various sectors of functions - basic infrastructure services, primary health, public health, organisational requirements, etc.
- Needs of different stakeholders - different income and consumer segments, residents across different wards, etc.
- Financial resources potentially available from all sources with respective requirements
- Organisational capacity with requirements for augmentation
- Capital investments versus requirements for improved operations and maintenance

DDP addresses the entire mandate of the ULB and avail of the entire sources of financial resources available to them:

- The Act requires SMC to prepare DDPs for five year tenure, i.e. once every five years. The preparation of DDP is not a one time exercise, thus can be continuously improved upon.
- The plans and projects proposed in the DDP are realistic and implementable, requiring the SMC to stretch its financial, human resource and delivery capabilities.
- Every stage of the DDP preparation process sought the participation by stakeholders. The process assumes that stakeholders are aware of their 'own' problems and issues. This brings an understanding of possible solutions based on intuition and experience. The process involved participation with technical analysis and expertise in the process of preparation of the various plans.
- This process of preparation of the DDP was transparent and the document was available to all. Thus, the ULB commits itself to deliver the stated plan and empowers the citizens to participate in the implementation of the plan.

*The rapidly changing national urbanization scenario in terms of decentralization, the role of the Urban Local Bodies has taken a centre stage. The pressure of rapid urbanization, coupled with the growing demands of better services from its citizens and a huge influx of floating population into the SMC area, has posed a huge challenge in terms service delivery. The Municipal Corporation is now poised to augment its preparedness, in elevating and enhancing its services delivery capacity to keep up with the expectations of its citizens.*

*Draft Development Plan 2008-09 to 2012-13*  
*Siliguri Municipal Corporation*

*This phenomenon has led to shift towards a more participatory and citizen friendly operation, further accelerating the pace of urbanization. The urban areas have been thrust into a situation, which demands self-sufficiency, in terms of institutional capacity and financial resource, to maintain the enhanced demand for quality service. As per the 74th Constitution Amendment, Municipalities, the third tier of governance, with Centre and State being the preceding ones, are experiencing a paradigm shift in all fronts of its operation. The age old practice of short term tactics and fire fighting solutions, has often led to inadequate coverage and impact on service delivery.*

*In keeping with this pace of change, SMC has assigned utmost importance to the preparation a Draft Development Plan. This 5 year term planning has been undertaken by active involvement of the senior authorities of the Corporation. Based on this Plan, SMC would deliver its services to its residents in the next five years. Every year, an Annual Development Plan would be drafted to carry out the comprehensive development work throughout the Municipal area.*

**Overall Municipal Vision for efficient and effective municipal performance**

During the five year plan period (2008-2013) the Siliguri Municipal Corporation envisages an overall development of Siliguri Municipal Corporation area with the principle of 'growth with justice'.

The Siliguri Municipal Corporation has set its goal for ensuring a multi-dimensional development of the basic infrastructure to keep abreast of the unprecedented growth of the city in recent years; an efficient and sustainable service delivery mechanism and amelioration of the living conditions of all its citizens with particular emphasis on the people inhabiting the slum areas especially the women and the children among them.

**Municipal Corporation Vision**

Siliguri Municipal Corporation envisions transforming itself into:

- A body having participatory & transparent municipal administration and efficient service delivery mechanism,
- With an environmentally clean, green and planned urban centre,
- That caters to welfare and upliftment of Weaker and Poor Section as primary thrust areas, ensuring universal health, education and social security
- An urban centre of excellence in the field of education, culture and sports
- Creating an investor friendly climate with sound infrastructure leading to generation of gainful employment, with Tourism as one of the main thrust area.

## Process in short (stages of DDP)

### STAGE 1

#### **Step 1: Introducing the concept of DDP in the Municipal Corporation:**

- Concept of DDP disseminated and resolution taken by BOC to initiate DDP in the Municipal Corporation
- DDP Guidelines was discussed and circulated to the members present.

#### **Step 2 and Step 3: Constituting DDP policy group (DPG) and DDP Technical Groups (DTGs) in the Municipal Corporation:**

- The DPG and DTGs were formed based on the resolution of the BOC Meeting.
- The DPG was to oversee the activities related to plan preparation and provide necessary support to the DTGs in their respective planning functions.
- DTG was to undertake the major responsibility of preparing the DDP.
- Three DTGs were formed by the Municipal Corporation to look after each component of Planning.

#### **Step 4: Conducting Planning Workshops in Municipal Corporation for DDP preparation:**

- Orient different sections of the planning, management and implementation groups (considering citizens as a key group),
- Estimate the availability of resources required for planning,
- Distribute specific jobs to the DTG members,
- Identify shortfalls and discuss guidelines for budget preparation.

Orientation and sensitisation workshops were held with different groups of stakeholders' namely:

- municipal staff
- Councillors
- Ward Committees
- CDS, Ward committee
- trade associations
- Youth clubs and the public at large.

It was specifically shared that several preparation of DDP was to be based on a Participatory Planning Approach where stakeholders' feedback would play a crucial role.

The whole Municipal Corporation had taken part in this process. A total awareness campaign were launched on behalf of the Municipal Corporation to spread the ideas and gather the views of the General

*Draft Development Plan 2008-09 to 2012-13*  
*Siliguri Municipal Corporation*

public, citizen groups, senior citizens etc. through meetings, distribution of pamphlets, hoardings, posters, street plays etc.

**STAGE 2**

**Step 1: Formulation of municipal vision and finalization of development objectives for each component:**

- Inputs were sought from different sections of the Municipal Office Bearers in drafting the vision for the Municipal Corporation.
- This was followed by a series of meetings and workshops to find out different aspects related to issue prioritisation and suggestive actions.

**Step 2: Preparing proposals and plans for the components:**

- The DPG and DTGs held regular meetings for the planning process through consultations at different levels.
- Ward level Meetings were held in all the 47 wards to identify proposals and to priorities them.

**Step 3: Finalizing Plans for each component by technical groups:**

- DTGs established inter-linkages between plans and project proposals of all sub components to prepare a compact plan.
- At each level Workshop were conducted for the finalization of the plan through a process of prioritisation of the identified proposals.
- The major exercise was done in establishing a linkage between the individual proposals and their financial representations based on logical assumptions and policies undertaken through the FINPRO

**STAGE 3**

**Step 1: Integration of plans of components of DDP:**

- DDP comprised plans and projects prioritised on a rational and logical basis.
- The DPG and the DGTs met in the Workshops and finalized the proposals considering all components.

**Step 2 and Step 3: DDP Quality check and public validation:**

- The DPG and DTG checked each and every component of DDP for quality following a structured DDP Quality Check Format.

**STAGE 4**

This stage constituted submission to DPC and approval by DPC of Darjeeling before final adoption of DDP by the Board of Councillors.

The tools and techniques used to design the plan document are summarised below:

- Study of secondary data and other information available from different sources
- Collection of primary data through surveys with structured questionnaire
- In depth discussion
- Transect walk
- Focused Group Discussions
- Stakeholders' Meetings

### Areas of Planning

- Component 1: Infrastructure, Land Use and Environment Development
  - Sub-component 1.1: Slum Infrastructure
  - Sub-component 1.2: Intra-municipal Infrastructure
  - Sub-component 1.3: Trans-municipal Infrastructure
  - Sub-component 1.4: Land Use Development
  - Sub-component 1.5: Environment Management
- Component 2: Social and Livelihood Development
  - Sub-component 2.1: Livelihood and Poverty
  - Sub-component 2.2: Local Economic Development
  - Sub-component 2.3: Healthcare Improvement
  - Sub-component 2.4: Primary Education Improvement
- Component 3: Municipal Institutional Strengthening
  - Sub-component 3.1: Organization Development
  - Sub-component 3.2: Process and Systems Improvement
  - Sub-component 3.3: Citizen Interface
  - Sub-component 3.4: Financial

**Key features / Major thrust areas of DDP**

- This DDP is designed to an integrated planning and guiding balanced development, seeking:
- Needs of various sectors of ULBs functions
- Needs of different stakeholders / citizens
- Financial resources potentially available from all sources with requirements
- Organisational capacity with requirements
- Capital investments versus requirements for improved operations and maintenance
- The DDP addresses the entire mandate of the Siliguri Municipal Corporation and avail of the entire gamut of financial resources available.
- The DDP is not a one time exercise and thus can be continuously improved upon keeping in view the dynamics of requirement of the ULB.
- The plans and projects proposed in the DDP are realistic and implement able. These plans require the ULB to stretch its financial, human resource and delivery capabilities.

- Every stage of the DDP preparation process sought participation of stakeholders. The suggested process believed that stakeholders' sensitiveness and awareness of their 'own' problems and issues thus bring an understanding of possible solutions based on intuition and experience. The participation process was followed up with technical analysis and expertise in the finalisation of preparation of the various plans.
- The process of preparation of the DDP was transparent and the document was available to all. Thus, the ULB commits itself to deliver the stated plan and empowers the citizens to participate in the implementation of the plan

### Summary of operational Strategy

It is essential that the "first generation" DDPs focus more on the process of preparation of the plans that address short to medium term problems, recognizing and considering the inherent imperfections. The emphasis on identifying and prioritizing issues in a participatory manner, rather than only rely on detailed technical analysis. The important features in the process was and would be continued, include:

- Participation by and consultation with the widest range of stakeholders, building on existing grass root structures such as Ward Committees, NHG, NHC and CDS
- Explicit attempts to assess socio-economic needs, especially of the poorest groups living in formal and informal settlements
- Transparent system for prioritization of issues
- Matching plans to projected resources. Financial projections must be realistic and affordable, from predictable funding streams.
- Reinvest any revenue generated from the capital assets created or contribution from the citizens.

The projects proposed to be undertaken are listed below:
